Q

Open a lock with a 3 digit password.

Lock \Rightarrow locked / unlocked $001 \Rightarrow 1$

if (still locked) {
 try (0) \Rightarrow 000

 if (still locked) {
 try (1) \Rightarrow 001

 if (still locked) {
 try (2) \Rightarrow 002

Q

Take an input from the user (INT)
Print all the digits of that no.
